The new Kanlux BTL fittings are intended for mounting on the 3-circuit rails of the Kanlux TEAR system. The advantages of the new Kanlux BTL luminaires are: luminous efficacy up to 100lm / W, high CRI (> 90), durability of 50,000 hours and a 5-year warranty. The luminaire adapter is integrated with the power supply, and you can choose from two colors of the luminaire (black and white) and two different versions (directional or with a wide beam angle). Kanlux BTL luminaires in the directional version have an adjustable optical system that allows you to change the lighting angle (15/25/45 degrees), as well as an optical diaphragm in the set, which reduces the glare effect.
