A harmonious overall picture! The modern vintage style of wood and metal makes the BELL lamp a decorative eye-catcher. Their striking spots can also be flexibly aligned. In nickel antique and gold, the shades skilfully round off the modern living style. For energy-saving lighting, it is recommended to use an LED illuminant. These are an optimal alternative to conventional halogen lamps and stand for a high quality of light and energy savings of up to 80%. In addition, LED lamps help you benefit from a long service life, low heat generation and at the same time protect the environment.
